

Declaration of Intention
PanTerraVida Society

Standing Together
Our Noble Expression

The PanTerraVida Society
House of Peace - Society for Life

WE HEREWITH AFFIX THE
SEALS OF OUR SOCIETY TO THIS
DECLARATION AND SEAL IT INTO LIFE

*We, Living Beings Standing Together,
The Sovereign Body Politic
PanTerraVida¹ Private Society*

Do Herewith Declare Our Will, Purpose, and Intent

We have established our Society to stand as a Power and Presence of rejuvenation and transformation in our world. PanTerraVida is a House of Peace and a Society for Life. We are a Mutual Benefit Society established on the principles and for the purpose and intentions as herein expressed.

We invite all who wish to join us in the grand adventure of creating a New Reality in our world to stand together with our intention to build a world that honors the integrity of all Living Beings and the Living Systems of this Earth, our home. Please consider the words as written herein, and for all who wish to join, consider these intentions and take them to heart and make them your own.

We are comprised of Living Beings who have entered our Society with Being, Passion, and Commitment, to bring forth our true Brilliance and Excellence as a vibrant living presence and unified field, all working together to engage the real work ahead, the building and vitalizing of our world, work that is the foundation of our intentions. We have taken the steps to walk out of the constraints of a false reality that only posits the ephemeral illusions of Life as a seductive similitude, an empty promise without substance. The steps to walk into Life, into a Real World, require the directive principle of our Will and the regenerative principle of our Purpose, combined with our

¹ Formerly PanTerra D'Oro, our name change was put into effect in October 2022 and better reflects our society and its Mission, Purpose, and Intentions as herein expressed

love for Life and all living things, to make manifest our intentions through proper Acts and Deeds – we shall only rest when we see that all Beings in this world have lives of Honor, Integrity, and Respect – lives of Dignity and Fulfillment.

We see all Beings as whole and self-contained, whose purpose, presence and intentions are recognized and honored as whole living systems, indivisible and with full status, standing, and capacity to express as Sovereign Free Will Beings, endowed with Sovereign Integrity, to direct their lives with their own Power and Authority. To achieve such a state of being requires commitment and persistence to face oneself, to heal the karma and trauma of our sojourn through the realm of death and destruction that has been our fare for eons of time – until now. Now, we have the capacity to transform ourselves, to heal the wounds of the journey, to solve our karma and our pain, to plant new seeds and water them with tears of joy that flow through us and out of us to cleanse ourselves and our world. We are as the waters of Life, the rivers and torrents and gentle brooks and cascading falls, ever seeking the timeless and infinite seas of our deepest desires to be free and unfettered to create, to celebrate, to initiate great works, and to see these intentions fulfilled in our lifetimes.

Paramount to our intentions is the *a priori* cognizance that we all live and exist within and as a Universal Spirit that manifests as Life itself, however, each being may choose to describe, detail, or perceive said Spirit and their own personal relationship thereto, as a matter of personal belief and private conscience. We can all agree that we share Life on the soil of this Earth and that we come to this world from somewhere - hence that we have a source. We can also agree that we all share a common ground, which is the Land that nourishes us and the very breath that sustains our lives. As such, our Source constitutes the very substance and fabric of Life itself and all Life is intimately interwoven in its mutual and interdependent nature, thus our only choice here on Earth is to do that which is Best for All Life. That which is best for all is equally best for each and every one of us. When standing on the Land with feet firmly planted in the soil of the Earth, we bring forth our unique expressions and bear fruit in harmony with the synergy of Life. We are in fact the fruit springing from the root of the Source that nourishes us and provides succor and vitality, as the

fruits of our own hearts and hands, enlivened by our own force of living presence. Such fruits have been taken away from us by sleight of hand and artifice of deceit, but now that time is past, and we no longer consent to such manipulations and presumptive authority. We no longer consent and that is our right and our standing, we no longer consent.

We are inspired and filled with our Breath of Life, standing implacable and resolute, equal with all of Life, with spirit and substance and all of existence, as we all stand on this common ground in and as the Life that we share and the Breath that we inspire together. Together, we embrace the principle that We Hold All Life As Sacred and We Honor the Life Force in All Beings. We stand unafraid and clear eyed, focused on our Intent, our gaze directed firmly forward, seeing for the first time a world that works for all of Life, a reality that sees this world healed, thriving, alive – our world that we have claimed for all of Life.

As this Unified Spirit we Declare that all Life is here to be embraced by all of us, that all shall be secure in our very Breath and Heartbeat and Resonant Sound: Eternal, Joyful, Abundant and Free. The Breath of Life is that sacred place of purity and wholeness where the living stand unencumbered, in a state of Being - a state of freedom and equality, solvency and wholeness, in honor and integrity. Within such a state of Being, we stand unified as those who have awakened to the fact that we were previously lost at sea, the sea of illusion and death, a sea created by the minds of men and women lacking in their own Source Connection, posing as gods of the matrix to enslave and control our Life Force in a world of commerce, in bonded servitude and the illusions of debt. In the Land of the Living, we honor all Life and do unto others as we would have them do unto us, we love each other as we would also be loved...this is the whole of our intentions: To uplift all Life and to Honor the sanctity of every Living Being and all systems of living creation in this world we call Earth – the heart of this creational field in a universe that is founded upon the principle of Sovereign Free Will and the Sovereign Integrity endowed in each and every one of us.

The PanTerraVida Society is founded on the principle that no Man or Woman, no Boy or Girl, shall be bonded or indentured to another. The Gift of Life is one freely conveyed, and therefore

our intention is that the PanTerraVida Society shall be a protective enclosure, a safe haven and safe harbor, into which all may come and have safe passage out of the sea of death and onto the Land of the Living. We are here to stand together, free of bondage, free of slavery, and free of the follies of the minds of men and women who have sought to contain, constrain, own and enslave all of humanity as their property and chattel. We know that we were originally intended to be living free of all such shackles, chains and constraints. Fundamental to this is to show all of the People how they can choose – by their own free will, action, and choice – to engage within themselves the power and capacity to break the bonds of illusion perpetrated by such recalcitrant and incorrigible minds and the false reality they have designed to achieve their nefarious ends. It is the manifested illusion of debt and bondage that keeps us lost in the sea of death, a state of illusion that we have entered as volunteers – a realm that we can walk out of and rescind our signatures thereto and withdraw our consent if we so choose. By settling all claims and attachments to the illusions of debt and slavery we can enter via the port of safe harbor onto the Land. Upon the Land we stand on the soil and substance within our own Being thereby delivering the manifest cargo of our individual spirit fully into this world. We claim our own lives and the estate that has always been ours, as Living Beneficiaries and not as those who walk unseeing in the light of day through the valley of death that has become as apparitions of real Life. First and foremost, we claim our own landed estate – our living body standing as the self-expressed life that has always been ours to claim – to preserve and protect as our own, and for our Sons and Daughters to be protected and guided to do the same.

It is the intention of this Society to be so established, with every member as the Living Beneficiary of their own Private Living Estate, said Estate defined as the Gift of Life in Manifestation and Creative Expression, and to thereby, as a gathering together of the larger whole, to establish a system of balanced self-governance as a Society and a model for others to emulate and make their own. We are GEMSTONE – Global Educational Media, Standing Together (as) Our Noble Expression, a Living University pursuing knowledge and wisdom, standing together as a unified field, honoring each as a living universe whole unto themselves. We honor each other and the

unique expression of every Being, uplifting the Noble Expression that we each bring to this world to weave a tapestry of Life that enwraps us in its embrace. Above all else, education through free and open media is the platform we intend to build to provide discourse and intercourse throughout all the lands and in every village and community and in every home. We hold in the highest regard our communion with the unified and collective spirit that indwells within each of us, all holding their own individual and personal relationships with Source and Life as a pure crystalline glass that holds the waters and the purity of Life, that displays the indwelling presence of the Living and Eternal being therein, like a blossom tasting the morning dew of every dawning day, as if it were the first day of Life in a life never ending.

We are founded upon the following principles, the first of which is to be in Service to the yet larger whole of Life and all Beings endowed with the Gift of Life here. Said service is founded upon the primary recognition that each Living Being is as a sacrament between the Being and his or her Source, and that the Gift of Life, as such a sacrament, is wholly honored in all thoughts, acts, words, deeds, and intentions by all others who share the common ground of Life on this Earth - embodied and endowed with the sacred breath that we all share. Equally, we recognize that the fabric of Life is interwoven with all other life forms on this planet, with the mineral and animal and plant domains, with nature and the environment, with the oceans and rivers, with the forests and the fields, with all living systems. We affirm that we must establish a recognition of the True Equality of Life, inextricably woven together by the master weaver as Life, as Source, as Creation itself. Therefore, our service is to all of Life, that it may grow in abundance, balance, and equanimity. We accept full responsibility for all Life and stand as Protector and Advocate in our Courts of Justice of Law and Equity. Our intention is to return to Justice so that every Living Being may preserve and protect the fruits of their own living tree and plant the seeds thereof into their gardens and homes and communities. As such, we recognize that if we fall short of such an ideal, we shall all perish due to our own ignorance and failure to see, realize, and comprehend the delicacy of our station and the responsibility to all of Life that we hold. Life in its purity is, after all, Our Noble Expression.

The Second Principle That We Declare as the guiding foundation upon which our Society has been established is that of Self-Responsibility. We recognize fundamentally that we are not victims, that all that we see in this manifest reality is a result of our own acceptance and allowance of outside authority, powers, and principalities, as if a real hierarchy of life station exists or existed or was the original intent of Source as Life. This, too, includes our own abrogation of Self-Responsibility. Rather, we know that we are responsible for what we have created in this world by our acceptance, allowance and consent, both individually and collectively, to the conditions that we see all around us and throughout the world. It is our intention to take full responsibility for the death, destruction, despair, and moral decay that is the harvest of our lassitude and ignorance in what we have allowed in this world. With this awareness of true responsibility, we set our intention to embody our own power and authority, to correct that which has been manifested by the dereliction of responsibility to uphold and honor all Life.

As such, we set out to act, we set our Intentions, we accept our responsibility, and we commit ourselves to heal this world in every form, in every corner and for every living thing. In this we recognize the inherent power in such responsibility and that all can be made whole once again if built on the foundation of four primary guiding tenets of a Living Being directing one's Life with Sovereign Free Will and standing with Sovereign Integrity, which is to stand as **Self-Directing, Self-Correcting, and Self-Generating.** As such, we have the power to transform ourselves and our world.

In the same moment, we see that all beings have such power through their own capacity of self-forgiveness, for to forgive another still separates that other from their own responsibility to see what they have wrought and to choose through one's own self-forgiveness the path to resolution. For too long have we allowed the false precepts of guilt and shame to shroud Our Noble Expression by misdirecting our attention to an outside authority, an enemy separate from our own inner landscape. Every individual has this power and that power is embodied in the application of self-forgiveness. We must first forgive ourselves for what we have accepted and allowed as the current

conditions on Earth. By acknowledging our own responsibility, we empower others to follow and to begin to take the steps to make amends and to atone for what has been done in this world. We must leave the field of battle that we have been seduced into engaging in endless wars of every kind, not just those of martial encounters, but also the wars of the spirit and the projection outside of ourselves of our own inner separation from Life. To atone means to enter a state of being “*At One*” – by Standing Together with all life and each other, by honoring Our Noble Expression, by embracing all the Earth (PanTerra) and honoring all of Life (Vida) – by walking through the doorway that leads to a New Life and sealing the door behind us where evil dwells. By so doing, each of us can erase the illusion of external power and control that has manifested in the form of bondage and slavery in this world. In so doing we are freeing ourselves and each other from the false precepts by which we have been controlled for far too long.

The Third Principle That We Declare and Recognize as a guiding foundation upon which our Society shall stand is that of Stewardship, defined as the balanced and integrated approach towards the development and maintenance of the necessities of Life with which we have been entrusted. This is evident in all of the manifold expression by and through the natural resources with which this Earth has been sufficiently endowed for all of life’s sustenance, support, nurturance, safety, and well-being. As such, we stand resolute – holding and sustaining our fiduciary responsibility with all the natural resources that come under our purview – to hold, maintain, develop, and expand said resources for the benefit of all who choose to come into our Society, for all of Mankind, and for all of Life. We hereby declare that we shall be guided in our endeavors with a sense of sacredness for the Gifts of Life; that all current and future generations shall be the beneficiaries of our service in stewardship so that we shall see, in our lifetime, that all are provided with the requirements of Life for a whole, balanced, and joyfully enriched journey on this planet – the inheritance for all Men, Women, and Young Beings. In essence, we declare our cognizance and responsibility that all such Gifts of Life require an integrated, Co-Creative relationship between Our Source within and Our True and Authentic Selves, here as the Stewards, Preservers, and Protectors of this Earth.

Therefore, We Declare Ourselves as having entered into this association as a free and independent Society with the name PanTerraVida Private Society, a society that spans and encircles the Earth, a whole system of responsibility and commitment, Our Noble Expression, Standing Together, whereby each member is recognized as being endowed with their own sovereign power and authority. This is our Claim of Right of Sovereign Free Will and Sovereign Integrity. We are standing together in co-equal relationships with the Earth as our home, our Life and Existence as our Source, and Ourselves as fully present, embodied Beings in Service, Stewardship, and Responsibility. We are here to build a better world and a New Reality founded on these principles and intentions. As well, we recognize the Spirit and the Presence and the Noble Expression of the Earth, every one of us as a part of the larger whole with which each has been endowed, holding within us the Eternal and Infinite Source of Life that has placed us here to imbibe the Gifts of Life that we share. In communion with Source, Spirit, and Mother Planet, we declare that a New Earth – based on balance, equity, abundance, compassion, mercy, and reverence for the sacredness of all Life – shall emerge forthwith by our efforts and our intentions. We place at the highest level the Sanctity of all Beings, the integrity of all Life, the Nobility of All, and the sovereign and indivisible wholeness through which we honor ourselves, each other, and all other Life forms of this Earth and beyond.

We Declare Our Intention to Support, Nurture, and Defend the rights of all Living Beings who walk upon this Earth and who share the Gift and Breath of Life. This intention is founded upon the knowing that all Sentient Beings are endowed with the Inherent and Substantive Rights of Self-Determination and the fundamental assurance of the minimum necessities of life such as proper nourishment, clothing, shelter, access to knowledge and education, health and well-being, emotional nurturance, and the training for fulfilling capacities to support and sustain their lives and their families, integrated within relationships of social, economic, familial and community bonds.

It is Our Dedicated Intention That We Shall Strive to assist all those in need in order that they may provide for themselves and their families the means of establishing these fundamental requirements of Life while on this Earth. We are guided by our conscience and our intention to honor all life forms and all Living Beings on our planet, and all sentient beings that exist as a whole, to direct our efforts to uplift and sustain the qualities of Life that we wish to have for ourselves and our families, and to continue in our efforts until all on this planet have achieved such a goal. In so doing, we fulfill the Principle that states “Do unto others as you would have them do unto you,” a principle of equity and balance that guides our thoughts and our deeds.

We Come Forward in Peace, with no other agenda except for those herein declared, thereby maintaining the respect and honoring of all Living Beings, Men and Women in full equality, and all peoples, religions, political organizations, and any other associations, that they have the honor and respect that we would desire and expect for ourselves. In this regard we declare our intention to honor all sentient beings that we might interact with and to hold at the highest level of respect the free moral agency with which every Being has been endowed. All who wish to enter into this Society shall examine their own conscience and personal commitment to this Declaration of Intention, and in the innermost chamber of their hearts shall therein pledge to uphold and fulfill this solemn commitment to the best of their capabilities. And for those who are not inclined to join our Society, we simply encourage you to consider this Declaration and to choose to be guided by these Principles and Precepts, if that is your will, and to make them your own as a guiding light in your Life.

In Unity and Community, We Hereby Declare that we are guided by the inspirational words to be found in a little-known document presented to us many years ago, a document that formalized the union of the Polish and Lithuanian states in Central Europe in the year of 1413, known as the Act of Union, wherein it is stated:

“It is known to all that a Man [or Woman] will not attain salvation if he [or she] is not sustained by Divine Love, which does no wrong, radiates goodness, reconciles those in discord, unites those who quarrel, dissipates hatred, puts an end to anger, furnishes for all the food of Peace...”

“Through that Love, laws are established, kingdoms are maintained, cities are set in order, and the well-being of the State is brought to the highest level...May this Love make us equal, whom Spirit and Identity of laws and privileges have already joined.”

To This We Herewith Dedicate our Creative Force and Capacities, our Considered Commitment and Resolve, our Heartfelt Passions and Our Very Breath of Life to see such as this fulfilled in our lifetimes. Embraced by the Eternal Wisdom of Life Itself we Stand Together in Our Noble Expression – the expression of Life unending and of Creative Expression unbound. All life is intended to be filled with abundance and prosperity, to be free to enjoy the abundant fruits of Creation as designed and manifested through our collective Being.

Such abundance shall ensue from our Hands and Hearts – empowered by our Directive Principle, which is our Will to live and to create, held in the resonance of our Regenerative Field, **which is our innate capacity to heal and regenerate our Life Force.** Our hearts are filled with thanksgiving for all the gifts that we have now and shall receive with each dawning day – all such gifts as these shall pour out of us to fill this world and to heal and return it to its original Template of Life. All of this do we intend to see done in our lifetimes, brought into being into the manifest world, for it is hereby decreed that there shall never abide any structure of lack, poverty, or limitation that would inhibit the free flow of our eternal pleasure as Life itself in bringing forth a true cornucopia of abundance, prosperity, and joy on this Earth. **The PanTerraVida Private Society** shall forever be aligned to this Intention and these Principles so that our Society shall forever fill and overflow, spreading to all whom we touch the Sweet Nectar of Liberty and Freedom, as the fruits of the trees we plant, as the inspiration of Life that we breathe, and as the seeds of the future that we nourish and grow.

In such plentitude shall each of us become a center point of Life as an implacable Tree that has established deep roots into the Earth and has survived the vicissitudes of the storms we have endured; thus we stand firm and strong for a reality that is realized when all share in the fruits of Life together in our World. May such a tree be firmly planted in each one who reads these words and takes them to Heart as their own, that the succor and sustenance we all require to live is here in Life for every Being, that all shall be sufficiently filled with the Spirit that inspires us all, empowered to bring forth such a vision as this to be made manifest by these intentions.

IN WITNESS HEREOF, we hereby establish this Declaration of Intention as a Co-Creative bond with all Beings and with all of Life. We herewith declare this as the new foundation upon which a New Earth shall be established, and we declare this as the intention of the **PanTerraVida Private Society**, and the PanTerraVida Private Contract Association, originally affirmed by the Office of the Overseer of PanTerra D'Oro, a corporation sole, society and association (now restated as PanTerraVida) on the Twenty-First Day of the Second Month in the common era year of Two Thousand Two, and individually, by each and every member of our Society, and by all those who wish to affirm these intentions and make this Declaration and Intention their own, and so it is!
